Austin SEO Website Search Engine Optimization Marketing

Website Submission Software

|It is important to bring as much traffic to your website as possible. Our submission software will submit your website to around a thousand search engines around the globe. The submission is a valuable yet inexpensive way to build reciprocal links to your websites. The website submission software invites search engines of all sizes to index your site. Once properly submitted and optimized your natural web ranking will improve.

Web Ranking Report

Our webranking report shows your natural website position in the top 5 search engines for keywords and keyphrases relevant to your business. This valuable report will help identify holes in your natural search engine placement which will help you target your Pay Per Click campaigns more effectively. The webranking report will also track your results historically as well as keep an eye on competing domains.

Sitemap

Your websites sitemap is submitted to Google Web Master Tools to help facilitate spidering and identify any problems with your website including broken links and improperly configured web pages.

Website Optimization

Floodhammer Media can provide your website with the proper optimization for excellent rankings in many search engines. A webpage that is missing a few key elements is not likely to appear in search engines naturally. Our software will constantly evaluate your websites and suggest improvements to help your natural search engine results.

Landing Pages

Landing pages offer your website visitors a quick way to become a customer or lead by offering a short description of your products or services and a few ways to contact you. Our landing pages are guaranteed to bring your website traffic. Each package includes 6 different keyword rich domain names that help market your main website.

Multiple Domains

- each domain name seeds particular keywords relevant to your business

- each additional domain increases your main site relevance by providing reciprocal links to your main site

- our software will submit your main site and your landing page sites to help improve search engine rankings

*** Price does not include domain name registration
*** One of our experienced Internet advertising consultants will contact you after your purchase to begin designing your marketing package.
